

Singapore Urban Pest Management Forum

Towards Innovative, Smart and Green Pest Management

24 - 25 April 2019

Singapore Pest Management Association (SPMA) is proud to host its national-level Singapore Pest Management Forum 2019.

This convention targets pest management professionals, solution providers, government agencies and service buyers in environmental health, vector control and pest management industry.

13 speakers from Australia, Indonesia, Japan, Malaysia, Singapore and USA will share their latest innovations, research, knowledge, and experience in addressing the challenging issues faced by the industry.

Join us for 1.5 days as we explore the urban pest management in Singapore

Proudly organized by:

To be officiated by:

Mr Masagos Zulkifli

Minister for the Environment & Water Resources
